

Enabling you to connect.®

8055 Integrated Billing

Billing for services can be one of the most complicated tasks when running a business. The 8055 billing solution simplifies this complex process. As a cost effective alternative to expensive billing services, 8055 provides a customer friendly approach that makes billing easy for everyone.

Enterprise Friendly

Billing is time consuming. 8055 allows users to automate the billing process, creating a more efficient workflow, saving enterprises time and money. Simplified customer management processes, tax application, and financial record keeping make billing and provisioning painless.

Enterprises have the ability to customize aspects of the billing system including invoice reporting, product catalogs and the customer portal. Allowing enterprises to reflect their brand through billing.

Transitioning to 8055 is made easy with onboarding support catered to the needs of an organization, ensuring their transition is as seamless as possible.

Customer Friendly

As a flexible cloud product, users can easily access all of their account information such as invoices , statements and payment method online at any time. Product catalogs are available to users via the online ordering system.

Secure

As a PCI (DSS) compliant product, you can count on both your information and your customers' staying safe and secure. 8055's environment protects credit card information from any threat. A fraud solution is also in place to protect businesses and customers alike by detecting suspicious activity.

About Powernet

Powernet enables businesses to connect internally and externally through innovative telecommunications solutions. Combining more than 24 years of telecom experience with Wi-Fi, voice, data, IT managed services and carrier services, we provide our partners and clients the unparalleled service and innovative technology they need to achieve their business goals.
