To help ensure the ability to connect with family, friends or businesses with ease.

How MassRelay works:

Dial 711 to connect with MassRelay. A qualified Relay Operator (OPR) will ask for the area code and the number of the person you wish to call before starting to relay the conversation. Generally, the OPR will voice the typed message from the text telephone (TTY) user to the person on the other end. The OPR then relays the spoken words by typing them back to the TTY user.
